Nadav Cohen

Software Engineering Student, Technion · Haifa, Israel

nadav167@gmail.com · 050-4217070 · GitHub · LinkedIn · Portfolio

Summary

Fourth-year Software Engineering student at the Technion, looking for a student position in software development or QA automation. Built and shipped three live full-stack apps; previously a QA tester for medical devices at Biosense Webster.

Projects

Ma Roim (מה רואים) – movie & TV catalog with an AI recommender Live · GitHub

Python, JavaScript, PostgreSQL (Supabase), GitHub Actions, Claude API

- Python pipeline that merges Wikidata, IMDb, TMDB and Wikipedia into ~58,000 Hebrew/English titles, rebuilt weekly by GitHub Actions.
- AI chat that recommends only real catalog titles by calling database search tools; user accounts with row-level security.

Pitron Shetach (פתרון שטח) – camping sites and night camps in Israel with an AI travel guide Live · GitHub

TypeScript, React Native (Expo), Node.js, PostgreSQL + PostGIS, Claude API

- One codebase for web, iOS and Android, in Hebrew (RTL) and English, with a layered Express API.
- Scrapers that collect and de-duplicate site data, and an AI trip planner that saves itineraries.

BoredGames (in progress) – real-time multiplayer games app Live · GitHub

JavaScript, Firebase

- Installable web app with friends, invites and live sync.

Education

B.Sc. in Software Engineering, Technion 2023 – 2028 (expected)

Relevant courses: Operating Systems, Algorithms, Data Structures, OOP, Computer Architecture, Network Security, AI.

Experience

Manual QA Tester, Biosense Webster (Johnson & Johnson MedTech) Yokneam · 02/2022 – 11/2022

- Tested cardiac-mapping and ablation systems under medical-device standards; wrote test cases and reported defects, working closely with developers and system engineers.

Skills

Languages: C, C++, Python, TypeScript/JavaScript, C#, SQL

Tools: React Native, Node.js, PostgreSQL/PostGIS, Supabase, Firebase, Git, GitHub Actions, Linux, LLM APIs

Military Service

Bureau Manager, "Latzad" Unit, Israeli Air Force – managed schedules and logistics for two lieutenant colonels.

Languages: Hebrew, English
